Communication Log
Author: Zac Batten

March 8th met and discussed how we are going to split up the use case and talked theory for how we were going to implement the code. Rongrong apologized about not participating last iteration very much and we had a discussion about them needing to do more work this iteration.
Zac,Fysal,Aman,Nima, and RongRong attended

March 11th both groups met and finished their use case and sequence diagrams. Zac,Fysal,Aman,Nima, and RongRong attended

March 15th Met with Mark for our scheduled group meeting. Zac,Fysal,Aman,Nima, and RongRong attended

March 17th Fysal and Aman started working on code, Zac did designs for pieces. There was a call in discord with Nima, Aman, Fysal, and Zac joining throughout the day to discuss the project.

March 18th code was being worked on throughout the day, meeting was called impromptu meeting was called at 10:30 PM by Aman to discuss progress. Nima, Fysal, Zac, and Aman attended.

March 19th Constant work the whole day, Aman and Fysal focusing on code and Nima and Zac focusing on documents. Many and small discussions throughout the day.

March 19th 8:30 PM Zac, Nima, Fysal, and Aman discussed Rongrong again not pulling their weight and decided it would be best to inform Rongrong that we would have to contact mark.
